Coupon code: **gEMArt6**
Valid through April 30th 2020

Download the Printer Driver Now!

Take advantage of even smaller PDF file sizes with the latest release of the Black Ice Software printer driver **version 16.10**. The **PDF file** size has been significantly **reduced** by as much as **50%** with the latest Black Ice printer drivers.

The document types effected are: **Microsoft Word** documents where the file size is **reduced** by the average of **10 percent**, **Excel** Documents are **reduced 15%**, The **HTML** documents are **reduced** by **30%**, and the **Adobe** PDF documents are **reduced by 15%**. Printing **Asian language** documents from MS **Word or Excel** can be reduced as much as **50 percent**.

A reduced PDF file size will improve the ability to transfer files, reduce the amount of space needed to store documents in the databases and allow for an overall easier document management process.

The file size reduction is the most visible with multi-page documents printed to PDF.

The reduced Compact PDF file format could be useful in emailing, database applications, and high volume document conversion environment, where file size is critical.

Additional feature added to Printer drivers include a conversion progress bar dialog indicator, when using the Save As window, for printing documents. The progress dialog indicator is useful when printing large documents, so users know when the conversion process is complete.

The complete list of improvements in the latest Printer Driver includes the following:

- PDF Output size optimizations (#12293)
- Added progress dialog when printing using the Save As dialog (#11903)
- Stability improvement for Printer Driver installation when an older version of the printer driver exists on the system (#12225)
- Stability improvement for setting default output directory for all printers during multi-printer installation (#12280)
- Updated PDF DLLs to version 3.0.9.714
- Added license type (Special Edition or Regular) detection to installers (#12249)
- Added feature to the OEM Release and Demo installers to uninstall the Printer Driver without restarting the system (#12236, #12240)

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our Customer License Management Portal.

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
