Valid through February 28th 2023

Download the Printer Driver Now!

Take advantage of Industry leading text recognition with Black Ice Software's PDF Printer Driver. Extract data from scanned documents and create searchable PDF files with almost 100% accuracy, saving users time in their workflow. Once, the searchable PDF is created it can be automatically uploaded to a Database, HTTPS, SharePoint or even emailed!

Key OCR capabilities that take your scanned document to a searchable PDF document.

- **Fast and Easy Conversion:** With optical character recognition (OCR) the Printer Driver works as a text converter, automatically extracting text from any scanned paper document or image file and converting it to searchable text in a PDF.
- **Formatting is easy and Accurate:** Your new PDF will match your original printout including font size and format. Allowing for the PDF to be easily processed.
- **Easy integration with all Windows Applications:** Convert image files from your scanner or even your proprietary software with a simple print process.

How to convert Scanned Documents to Searchable PDF's:

Open any image file you wish to convert.

Click on Print like you are printing a document and select the Black Ice PDF Printer Driver.

From the Save As window, make sure the "Searchable Compact PDF - OCR" format is selected as your file type.

Type a name for your searchable PDF and click Save.

The Black Ice Printer Driver will now print & convert the Document to a fully searchable copy of your scanned document.

A list of some recent improvements to the Printer Driver can be found below:
