10% discount for Printer Driver*
Coupon code: **gEMArt6**
Valid through Jan 31th 2018

Download Printer Driver Now!

The newly released Black Ice Printer Driver version 14.99.1883 includes **significant improvements for the HTTP File Uploading Feature**. The new HTTP File Uploading Feature comes with **customizable error codes**, allowing developers to **display specific error messages** to the user, if any problem occurs during the HTTP File Uploading.

By using the new customizable error codes, System Administrators and Web Developers can implement **additional error handling** and display customized error messages for each error. This greatly improves users ability to correctly use the HTTP File Uploading feature and allows System Administrators to more quickly troubleshoot any errors.

With the latest release, **error messages can now be displayed even when silent uploading is enabled** for the HTTP File Uploading feature of the Printer Drivers. This allows for an improved workflow and productivity as users can remove unnecessary steps.

The new Printer Driver also includes an updated **PDF writing module**, including stability improvements for calculating character widths. This results in more precise PDF font calculation and font positioning when printing from certain medical applications.

The complete list of improvements in the latest Printer Driver includes the following:

- Stability improvement for text output even when the printed page contains no text
- Added option to the HTTP upload feature to display error messages even in silent mode
- Added custom error to HTTP upload feature, to allow customers to show personalized error messages (Error code 621)
- Fixed "Merge Documents" window opening behind the printing application
- Updated PDF Dlls to version 2.9.1.688
- Stability improvement for calculating character widths for certain documents
- Updated elicense.dll to version 5.12.202
- Made some error messages clearer
- Licensing improvements
- Updated manuals

As always Black Ice is happy to help, feel free to contact us for your Companies software needs or upgrade requirements 561-757-4107 Ext 2 Contact our Sales Department today for our 2018 new year special pricing promotions.

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
