Download the Printer Driver Now!

Black Ice Software is pleased to introduce the X1 Printer Drivers, which offer exclusive features not available in the standard Black Ice Printer Drivers. The X1 Printer Drivers offer **the most advanced features available for virtual Printer Drivers** on the market today. Allowing the X1 Printer Drivers to be integrated into a variety of unique workflow environments.

Some of the key features available only in the Black Ice X1 Printer Driver include:

- **HTTP, HTTPS support** with **POST** requests and **Header Parameters** to allow customers to upload the printed documents automatically to their online document management system.

- **Database Support** to upload printed documents automatically to any database. The Database Uploading feature allows users to also upload OCR (*Optical Character Recognition*) and Text Output results to the database, providing a one-click solution to digitalize your documents and their content into a database, for further Indexing and Searching.

- **FTP, FTPS, SFTP** support let users upload the printed documents automatically to an FTP server, even without any user interaction. The FTP Uploading feature also supports proxy

connections for secure environments.

- **Barcode printing** allows users to add a 1D or 2D (QR, Data Matrix, PDF417) barcode to the printed documents. Users can configure a specific text, file input, embedded text for the barcode value, or provide a regular expression for highly specialized documents.

- **M-Files Support** allows users to upload documents to the **popular M-Files** (intelligent document management system) **with Meta-data, OCR, and plain text data**. M-Files allows you to find information based on what it is rather than where it's stored and utilizes artificial intelligence to help you manage documents.

- **Cover Page Filler** allows users to **fill and insert a cover page at the beginning of the printed document**. The Cover Page Filler is launched by the Printer Driver during the printing process to give users the ability to fill in a cover page.

- **Installation large scale deployment** Every feature and expect of the X1 Printer Driver can be preconfigure during installation without user interaction with silent installation.

- **Subscription-based licensing** offers priority technical support, free access to all upgrades for the software, and allows customers to transfer the license to a new computer. A Subscription License is automatically renewed annually.

For a limited time only we are offering **discounts starting at 25% off** for customers who are interested in upgrading their existing Printer Driver license with support to an X1 Printer Driver Subscription. This offer is valid until 2/28/2022. Don't have active support on your license, contact our sales team for a special offer to still upgrade today!

If you are interested in our X1 Printer Drivers, call us at +1 (561)-757-4107, or contact sales@blackice.com for more information.
