Coupon code: **gEMArt6**  
*Valid through November 30th 2022*

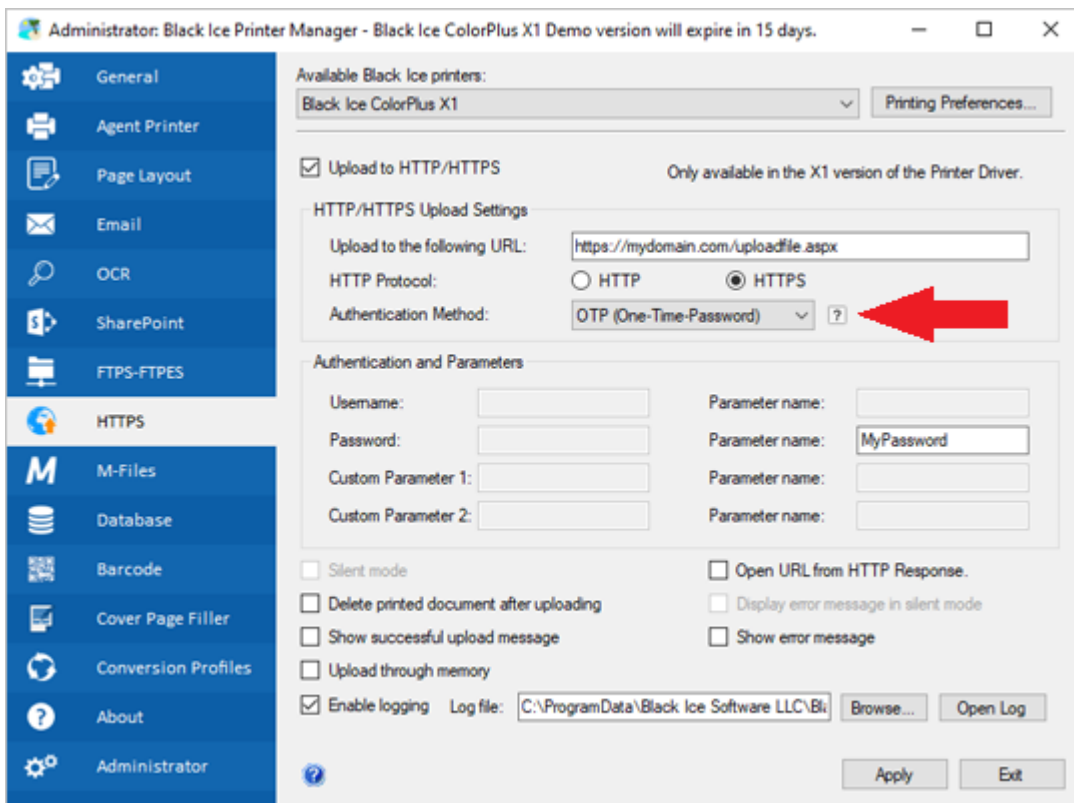

**Download the Printer Driver Now!**

Black Ice Software's latest release of the Printer Driver Version includes new **HTTPS OTP (One-Time Password) Authentication**.

The HTTPS upload feature of the printer driver has become increasingly popular for customers to import documents into existing Web Server-based applications. The HTTPS uploader of the printer driver already supports the standard Authentication methods for the Web server applications. **Now included is the OTP authentication** to simplify user interaction and reduces the number of clicks for users. The OTP authentication is also available for our OEM printer driver customers.

The **One-Time Password** can be configured manually or through the MSI installer using the INI file. To **configure** the OTP feature in the Printer Driver, please navigate to the **HTTPS** tab, and select the **OTP Authentication Method** as in the following image:

Based on your website configuration, please also specify the **Password Parameter name**. The Password Parameter name specifies the name of the POST parameter where the OTP password will be stored.

Black Ice Software's latest release of the Printer Driver **Printer Manager** Version 17.20 also includes an improved **Page Layout**.

The most commonly used printer driver features of **Page Size, Orientation, and Resolution** configuration are now available and easily **accessible** on the **Printer Manager's** user interface **Page Layout** Tab, for improved usability and to reduce the number of clicks for users to access basic printer configuration features.

The complete list of improvements in the latest Printer Driver includes the following:

DATE: 10-11-2022

Version: 17.20 (revision: 2907)

- New OTP (One-Time-Password) Authentication Method added to the HTTP Upload feature (#15602)
- Renamed Page Formatting tab to Page Layout in the Printer Manager, added Paper Size, Orientation, and Resolution options (#15647)

### Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or [sales@blackice.com](mailto:sales@blackice.com).

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

\*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
