Black Ice Software - August 21, 2012

More Installation…

The Black Ice printer driver version 13.38 now includes Installation logging in the Black Ice Installer API. The installation logging feature simplifies development and maintenance of the Black Ice printer drivers.

Single click configuration of the printer driver.

The "Document Conversion Profile" enables users to configure the printer driver with a single click to a specific task. The Black Ice document converter printer drivers have a built in simple tool to create complex configurations for a specific document conversion task. The Black Ice document converter printer drivers includes several built in profiles such as a Merge Document to PDF, Merge Documents to TIFF, Document conversion to Text, Document conversion for Fax, and more. One can create a personal Profile, in addition to the built in profiles, for specific conversion including output directories. Most users are not familiar with the document conversion technology such as data compression and file format details, however this option provides IT managers with the ability to configure the printer driver for users without involving the users in the intricate details.
