## Document Converter MSI Installers for Windows/Citrix Servers

MSI Installers for large scale deployments are now available for the Document Converter ColorPlus, PDF, Tiff/Monochrome printer driver for Windows/Citrix servers. Please [contact sales](#) for details.

### Fully customizable installation through MSI installers

Black Ice Software's "End User" Document Converter printer drivers are now fully customizable through the MSI Installer. Large scale deployment becomes a simple procedure. System Administrator can create a customized installation for large scale deployment using a simple INI file.

Every aspect of the Document Converter printer driver's hundreds of features can be custom configured, including Email and SharePoint configuration. System Administrators can silently install the Printer Drivers on every computer when the User logs into the domain the first time through the Group Policy Deployment.

Supported Installation methods using Group Policy Deployment are as follows:

- Assign to Computer (silent install)
- Assign to User (silent install)
- Publish

Additional supported installation method;

- Installation from command line (cmd.exe)

The customizable MSI installer is now available for Windows Desktop system and Windows/Citrix Servers.
