Black Ice Software - October 2, 2013

Document Imaging SDK 12.15 is released!

Improved **Samples, Installation** and simplified **registration**

Black Ice Software's Document Imaging SDK/ActiveX, Image SDK/ActiveX, TIFF SDK/ActiveX, PDF and Annotation Plug-in version 12.15 includes several new **improvements in the installation and uninstallation**, and new **simplified demo product registration** to improve the user's experience.

In the new release of Black Ice Software's Document Imaging 12.15, the demo product **registers automatically** during the installation **without any user assistance**, to make Document Imaging usage smoother than ever before.

Also, the Document Imaging version 12.15 includes new improvements and **extended error handling** in the Samples and DLLs, and new **updated manuals**.

The complete list of improvements in the latest Black Ice Document Imaging version 12.15 includes the following:

- Improved and simplified demo registration
- Stability improvement for empty PelsPerMeter parameters on JPEG compressed Tiff file loading
- Stability improvement for text position in DIBTextOverlay function in BiTiff.dll
- Extended error handling for DetectSkewAngle function in the samples
- Improved error handling in DetectSkewAngle function in BiDocImg.dll
- Updated manual
