Black Ice Software - December 18, 2013

Document Imaging SDK 12.50 is released!

New OCR (Optical Character Recognition) functions

Black Ice Software's Document Imaging SDK/ActiveX version 12.50 includes new **OCR functions to convert Tiff, Image PDF, Faxes, and Scanned documents into editable and searchable text** format and also includes stability improvements for PDF documents.

With the new OCR functions implemented in the latest Document Imaging SDK/ActiveX version 12.50 and Document Imaging Sample, developers can **OCR single and multipage documents and even selected areas on a document's page.** Also, the latest Document Imaging SDK/ActiveX includes **updated documentation** to help the developers **take advantage** of every feature of the OCR functions and methods that have been implemented.

The latest release of the Document Imaging SDK/ActiveX also includes improved PDF document handling.

The complete list of improvements in the latest Black Ice Document Imaging SDK/ActiveX 12.50 includes the following:

- Added BiOCR.DLL and BiOCR.OCX
- Added OCR functions and methods
- Added OCR feature to Document Imaging Samples
- Stability improvements for PDF document handling
- Updated manuals
