For your convenience we have outlined the most important new features of the recent months:

Tiff Viewer 11.00 with ribbon and OCR!

Black Ice Software has released version 11.00 of the Tiff Viewer and Tiff Viewer Server with **Optical Character Recognition** included to convert any kind of scanned documents into editable and searchable text files.

Also, the recent Tiff Viewer has a **completely redesigned ribbon menu** which helps users find, understand, and use features efficiently with a minimal number of clicks.

Major improvements include:

- Added Optical Character Recognition
- Updated User Interface for standard Ribbon menu
- Added Quick access toolbar customization
- Updated Annotation
- MSI installer for large scale deployment
- And dozens of new improvements

Redesigned FileMorph Document Batch Converter!

The redesigned batch conversion with a **Directory Monitoring** feature enables the user to **Map processed subdirectories**, delete converted files from the source directory, and test the access for the configured files to monitor. Version 3.00 of the FileMorph includes the latest Black Ice Document Converter Printer Driver to provide the **fastest high-volume document conversion** with hundreds of features embedded in the printer driver.

Major improvements include:

- **Improved directory monitoring and batch conversion**
- Added feature to Map processed subdirectories
- Added feature to test directory access
- Added feature to delete converted files
- **Added new file formats**;PDF/A, Linearized PDF, Editable HTML, XML, and more...
- Merged Demo and Release installers to simplify installation and registration
- Added Conversion Profiles

The Black Ice Support form generates a ticket number and you must **save this ticket number** for future reference.

Technical support requests for Customers without a valid Maintenance subscription will be handled through the Black Ice Forum.

Improved Print2RDP and Print2Desktop

RDP Printing smoother than ever before!

Black Ice Software has released version 6.10 of the Print2RDP which includes **compatibility with Windows Server 2012** retail release and dozens of stability improvements to make RDP printing smoother than ever before.

Also, Black Ice Software has rebranded Print2XP to better reflect the product functionality. Since the first release of Print2XP, Microsoft released several new operating systems and Print2Desktop is **fully compatible with Windows 8 and Windows 7** operating systems.

Major improvements include:

- **Windows Server 2012 and Windows 8 Compatibility**
- Improved installation/uninstallation process
- Stability improvements and Updated user interface to improve user's experience

Document Converter Printer Driver!

The recently released Black Ice Printer Drivers includes several new features and quality improvement of the printer driver. Several improvement have been added to PDF format, added Editable XML output format, and **improved Silent MSI Installers** for large scale deployments.

- Updated PDF for better PDF printing
- Added editable XML file format
- Improved MSI installer for every Black Ice Printer Drivers
- Added silent uninstall support for the InstallShield Samples
- Improved silent mode for MSI samples in the Printer Driver API/Resource Toolkit
