email sending to customers, predefine the email subject, email body and only prompt the user to enter the recipients.

**The complete list of improvements in the latest Black Ice Printer Driver include the following:**

- Greatly improved Text Extraction from PDF and HTML documents
- Stability improvement for printer driver installers if the Print Spooler service is not running
- Stability improvement for Message Capture when used with multiple Printers in parallel
- Improved Messaging Interface logging, error reporting and new configurable timeout value in the Printer Driver INI file
- Stability improvement for setting up and testing SMTP connections using the Print Manager
- Added the "Audit log", "Prompt the user only for email address" and "Delete every file, including attachment, after the email is sent" email options to the Printer Manager UI
- Added Message Capture warnings to the Group File
- Added new configurable time-out value for the Message Capture to the INI files
- Increased Message Capture default timeout values to 10 seconds
- Updated manuals

## **Free Upgrades and Priority Support**

---

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information call us at +1 (561) 757-4107 Extension 2, or email us at [sales@blackice.com](mailto:sales@blackice.com).

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!
