Black Ice Software - July 12, 2013

Document Converter Printer Drivers version 13.71 has been released!

The Black Ice Printer Drivers version 13.71 includes several improvements to **simplify the large scale deployments for system integrators.** This release also provides more options for the administrators to configure the Black Ice Printer Driver **MSI Installers** before and after the deployment through **environment variables.**

By using the environment variables, Black Ice Printer Driver MSI Installers can be configured to **handle the differences between the x64 and x86 operating systems.**. This allows system administrators to make the installation of the Black Ice Printer Drivers on hundreds of computers **more flexible.**

Please contact sales@blackice.com for details about the Black Ice Printer Driver MSI Installers.

Furthermore, the new Black Ice Printer Drivers include stability improvement when printing to **HTML - Editable** and **JPEG compressed TIFF** file formats.

The complete list of improvements in the latest Black Ice Printer Driver release includes the following:

- Environment variables are now allowed in more printer driver parameters
- Stability improvement for JPEG compressed TIFF output
- Updated PDF DLL-s to 2.6.1.429
- Stability improvement for HTML - Editable output
- Updated manuals
