Black Ice Software - January 28, 2015

Printer Driver 14.20 is released!

Significantly improved printing speed to PDF file format!

Black Ice Software has released the Printer Driver 14.20 including **significant improvements to printing performance when printing to PDF file format.** In some cases the printing speed increased **100% faster** when printing any type of file format to PDF while the output quality remains the same!

Version 14.20 of the Black Ice Printer Driver includes **stability improvements in the Printer Manager** for old printer drivers without OCR and **user interface improvements for the 100% Watermark visibility option.**

The complete list of improvements in the latest Black Ice Printer Driver include the following:

- Font optimization, and Embedded font optimization for Faster output generation.
- User interface improvement for the Watermark Brightness option
- Stability improvement in the Printer Manager for old printer drivers without OCR
- Updated PDF DLLs to version 2.6.2.618
