Download Printer Driver Now!

Black Ice Software has released Printer Driver version 14.99, including new capabilities to be fully **HIPAA compliant** and help healthcare organizations **protect medical, confidential and patient information!**

In the most recent version, a new TextData event has been added to the Messaging Interface. This new feature allows customers and developers to keep the Text Output in memory and pass it to a custom application, or directly upload into a database, without storing any information on the hard drive.

By using the new TextData event, in conjunction with the recently added extended Message Capture event, customers can keep all Text, Image and OCR information in memory, and directly capture or upload the information to their database, without storing any sensitive or confidential information on the hard drive.

The latest released Printer Driver also includes **new hOCR output format**, which generates an XHTML formatted output file with position and layout information with HTML file extension. This option is recommended if one intend to convert the text back to formatted layout.

The complete list of improvements in the latest Printer Driver includes the following:

- Added the TextData event to Print to Memory samples

- Disabled the Change and Repair features in Programs and Features for the MSI install samples
- Disabled the Change and Repair features in Programs and Features for the MSI install samples with driver package
- Disabled the Change and Repair features in Programs and Features for the WIX install samples
- Disabled the Change feature in Programs and Features for the C# and VB.NET install samples
- Stability Improvement for C# and VB.NET install samples for building with Visual Studio 2005
- Stability Improvement for C# and VB.NET install samples for installing with silent mode
- Added the "Edit Property Table" script for MSI and WIX install samples
- Updated manuals

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
