## Printer Driver 15.45 is released!

A diagram illustrating the reduction in PDF file size. On the left, a large white document icon with a red "PDF" label and an orange "500KB" label is shown. A green arrow points from this icon to a smaller white document icon on the right, which has a red "PDF" label and a green "25KB" label. Below the larger icon is a circular icon with a white square and a diagonal line, and below the smaller icon is a green circular icon with a white checkmark. To the right of the documents, the text "Reduced Output File Size for Generated PDF Documents" is displayed in white on a blue background.

A yellow circular icon with a white star and the text "10%".

*Valid through January 31th 2019*

A white download icon (a square with a downward arrow) on a green background.

**Download Printer Driver Now!**

**Compact PDF** is now available in version 15.45 of the Printer Driver. The compact PDF file format **significantly reduces** the **PDF file size** produced by the Black Ice printer drivers by **50-70%!!!!!!**

A reduced PDF file size will improve the ability to transfer files, reduce the amount of space needed to store documents and allow overall easier document management system.

The file size reduction is the most visible with one and two page PDF documents.

The Compact PDF file format is not recommended for NONE Latin character based fonts such as Arabic and vertical text in the Asian fonts. Also Compact PDF file format is not recommended when the PDF document requires sophisticated and precise text layout rendering.

The Compact PDF file format could be useful in emailing, database application, and high volume document conversion environment, where file size is critical.

Important note for customers who are using the Auto-print SDK to convert document to PDF file format; to utilize the Compact PDF file format, one must **update the Auto-print SDK to version 15.45**.

The complete list of improvements in the latest Printer Driver includes the following:

- Added Compact PDF file format (#9815, #10327)
- Updated PDF DLLs to version 3.0.0.703
- Updated Manuals

### Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or [sales@blackice.com](mailto:sales@blackice.com).

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

\*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
