New Annotation Objects

Updated Tesseract OCR

And many more new features

10% discount for Document Imaging*

Coupon code: **gEMArt6**

Valid through March 31st 2019

Download Document Imaging SDK Now!

The **Document Imaging SDK/ActiveX 12.70** from Black Ice Software has been released for **developers**.

The latest release contains several **new Annotation objects** to allow for **development of** interactive applications such as a **Cover Page filler, Form Filling or Form Editing applications**.

Some of the new annotation object types include **Editable Textbox, Editable Multiline-Textbox, Signature, Date and Time, Checkbox, Hyperlink and Tooltip**. Each object has several properties such as font type, font size, text alignment, background color, default text, etc, that make Annotation SDK easy to use toolkit.

The new interactive annotation objects (Textbox, Multiline- Textbox, Signature, Date and Time,

Checkbox) can also be filled by the user with the form filling functions. The Annotation objects can be saved in the TIFF header, or saved as an XML file. Please see Black Ice Software's upcoming [Form Designer](#) and [Form Filler](#) applications.

The Document Imaging SDK/ActiveX also includes an entirely updated OCR engine from Tesseract release V4.0.0 from October 29, 2018. Please see technical details about [New OCR engine - Tesseract release V4.0.0](#) performance.

The Imaging Toolkit license models will also be changing. The Document Imaging SDK/ActiveX products **runtime free version** will be **discontinued**. The Annotation SDK Plug-in and the Image PDF Plug-in will also no longer available as Add-ons for Image SDK and TIFF SDK. Existing customers with support contracts will continue to receive upgrades and can renew the support contracts per existing agreements however for all new licenses; Black Ice Software will also be removing "add on SDK" licenses.

The Annotation SDK Plug-in and the Image PDF Plug-in will be available ONLY in the Document Imaging SDK/ActiveX.

The complete list of improvements in the latest Document Imaging includes the following:

- Annotation - Added Textbox, MultilineTextbox, Signature, Date Time, Checkbox, Hyperlink, Tooltip annotation objects
- Annotation - When placing stamp annotations, clicking instead of dragging will place the stamp in position and its original size
- Annotation C++ Sample:
 - Textbox and Multiline textbox drawing
 - Check box drawing
 - Control buttons for Textbox border thickness, border drawing, border color and background color
 - Context menu for Textbox and Multiline textbox
- Annotation - Stability improvement for AnnoObjSetFreehandPointCoords, AnnoObjSetPos and AnnoObjSetSize functions for freehand objects. (#10207)
- Stability improvement for clearing the BiDisp ActiveX control (#10363)
- New OCR engine - Tesseract release V4.0.0 from October 29 2018
- Scanning - Stability improvement for batch scanning into memory. (#10068, #10343)
- New installation, with serial key based activation of the licensed product (#10460)
- Added the version number to the title of Release installers (#10632)
- Added transferable license handling (#10460)
- Removed cab files (#10663)
- Updated Manuals

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107**

Extension 3, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).
