Attention All Medical Professionals!

Are you tired of spending hours processing paperwork and updating electronic medical records? Say goodbye to those time-consuming tasks and hello to Black Ice Software's Printer Drivers - the ultimate solution to streamline your medical workflows and boost clinical efficiency.

While many document converters on the market focus solely on paper-to-EMR conversion, Black Ice Printer Driver goes above and beyond to provide a range of features specifically designed for the medical industry. Here are just a few examples of how Black Ice can help you:

- [Merge Medical Records Quickly and Securely](#): With Black Ice Printer Driver, you can not only convert your paper documents to PDF or TIFF, but also merge existing medical records into one multi-page document. Imagine updating a patient's electronic medical record with a list of prescribed medications in just a few clicks, without any manual data entry or time-consuming paperwork.

- [Update Documents Silently](#): The merging feature can be completed silently in the background, without any pop-up dialog boxes that interrupt your workflow. This is especially beneficial for operating practices and hospitals, as well as medical archiving.
- [Security](#): The Black Ice Printer Driver provides top-notch security features designed to protect sensitive information and comply with industry regulations such as HIPAA and HITECH. With the Black Ice Printer Driver, you can be confident that your valuable data is being handled with care and the highest level of security.
- [Seamless Database Integration](#): Once you've printed your updated medical record with Black Ice, you can easily upload it to a secure database with just a few clicks. This post-printing option saves you time and ensures the security of your patients' data.

Maximize your clinical efficiency with Black Ice Software and get hours of document processing time back daily. Try it now and see the difference for yourself!

A list of some recent improvements to the Printer Driver can be found below:

DATE : 02-01-2023

Version : 17.32 (revision: 2960)

- Stability improvement for the Merge Window in the TIFF/Monochrome printer drivers (#16187)
- Made some of the licensing related error messages clearer (error 35) (#15890)
- Stability improvement for starting the Print Spooler service after installing the Printer Driver using the MSI installers (#16173)
- Writing the Print Spooler status to the Printer Driver MSI installer logs at the end of installation (#16173)
- Updated eLicense.dll to version 6.34.310

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
